

May 24, 2022

Dear Danville City Council:

We are writing on behalf of **YIMBY Law** regarding Danville's 6th Cycle Housing Element Update. **YIMBY Law** is a legal nonprofit working to make housing in California more accessible and affordable through enforcement of state law.

Per §8899.50(a)(1) of state code, Danville's housing element must affirmatively further fair housing, which entails 'taking meaningful actions... that overcome patterns of segregation.'

The City of Danville is uniquely positioned to affirmatively further fair housing, as Danville is a wealthy, exclusionary city that Berkeley researchers identify as highly segregated from the rest of the Bay Area. This socioeconomic segregation is caused by the exclusionary cost of housing in your community, where an average home, as of April 30th, costs \$2,638,000, which is only affordable to someone earning a salary of \$413,000, meaning **only the richest 2% of households can afford to settle down in your community**. To put a finer point on the level of affluence in your community, the average home in your city costs more than French castles. It is thus no coincidence that your city is 59% whiter than the rest of the Bay, as well as 83% less black than the rest of the Bay Area. Sadly, your city's demographics have trended in an even less equitable direction, losing 91 black residents and losing 1 brown residents while gaining 761 white residents since 2010.

In a 2021 report entitled 'Exclusionary Zoning: Its Effect on Racial Discrimination in the Housing Market,' economic advisors for the White House outline how exclusionary zoning, like yours, causes segregation. Your exclusionary zoning pushes low income children to live in less resourced areas, which begets worse life outcomes from health to income. The research is clear: exclusionary zoning violates your duty to further fair housing.

To take meaningful actions that overcome patterns of segregation, we recommend you:

1. **End apartment bans in high opportunity areas.** This will give middle and working class families the opportunity to share in the resources your rich neighborhoods enjoy. As of 2020, **your city banned apartments in over 94.8% of high opportunity residential areas.**
2. **Accommodate 6320 low income homes in your site inventory.** While substantially larger than the floor of 1028 low income homes required by RHNA, 6320 is the number of homes required to bring the proportion of low income families in your city in line with the rest of the Bay Area. While this number is large enough to be politically challenging, it will always be politically challenging to overcome segregation, as AFFH requires.

Thank you,

Salim Damerdjji, South Bay YIMBY

Keith Diggs, YIMBY Law
